

Pay as you go with contactless caps

Valid as of 8 June 2025 until further notice

Capping limits how much you pay for all your journeys. When your pay as you go with contactless journeys into and within London add up to a certain amount in a day or week (Monday to Sunday), you won't be charged any more.

Your fare will be capped at either a daily peak rate, daily off-peak rate or a Monday to Sunday rate. The fare you are charged is determined by when you touch in with your contactless card or device:

- Morning peak times apply 06:30 to 09:30, Monday to Friday.
- Evening peak times apply 16:00 to 19:00, Monday to Friday, when you are travelling from or via stations in the London Zones 1 to 9. However any pay as you go with contactless journeys made between 16:00 and 19:00 will still count towards an off-peak cap.

For journeys outside London, please check evening peak times with the train company you're travelling with.

Weekends and bank holidays are off-peak all day.

London Zones 1-9

Compare caps for travel exclusively within London Zones 1 to 9 at [Transport for London](#).

Beyond London Zones 1-9
